

## 2021 Summer Challenge Rules

### **“The QQ Neighborhood”**

We’re going to create a “neighborhood” of houses. For this challenge, everyone will start with the same pattern, then add to and/or embellish as much as you like to create a house that makes you smile.

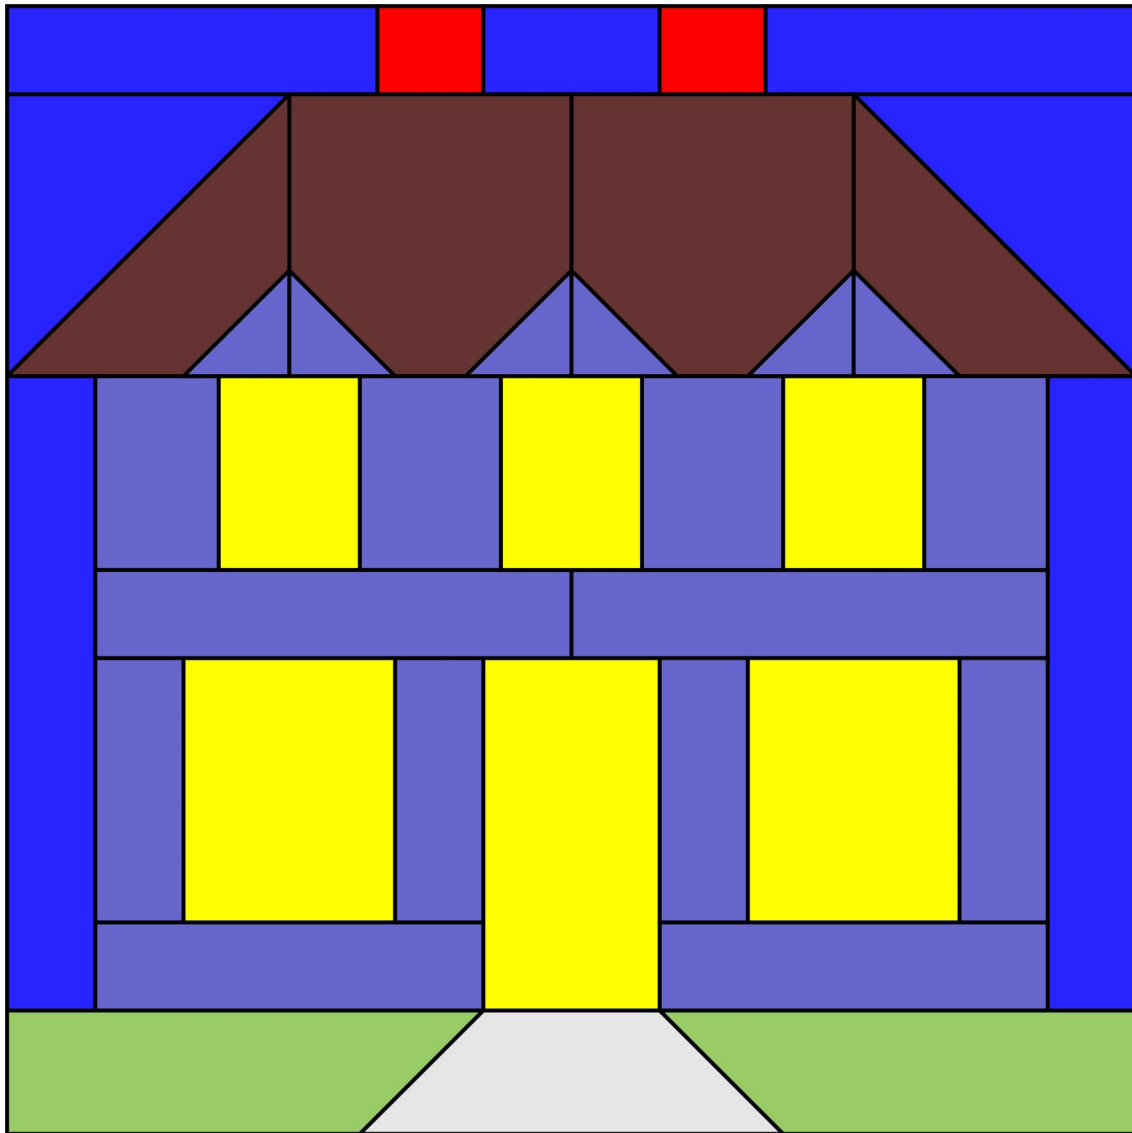

1. You must start by making the house pattern.
2. Any individual piece of the house may be made from multiple fabrics – i.e. you could crazy-piece a window. Or crazy piece every piece!
3. Embellish the quilt as much (or as little) as you like, BUT, a viewer must still be able to see the “bones” of the house when you are done.
4. The house block measures 16” x 16” (finished). Your completed quilt should measure no more than 24” square, or a total perimeter of (24” x 4) 96” around.
5. Your quilt must have three layers (top, batting, backing), must be quilted, and must have a finished edge.

If we are not meeting in person in September, photos of your quilts will be due three days before our first meeting. Otherwise, plan to bring your quilt to the meeting in an unmarked bag.

(Pattern adapted from Quiltmaker October 2014)

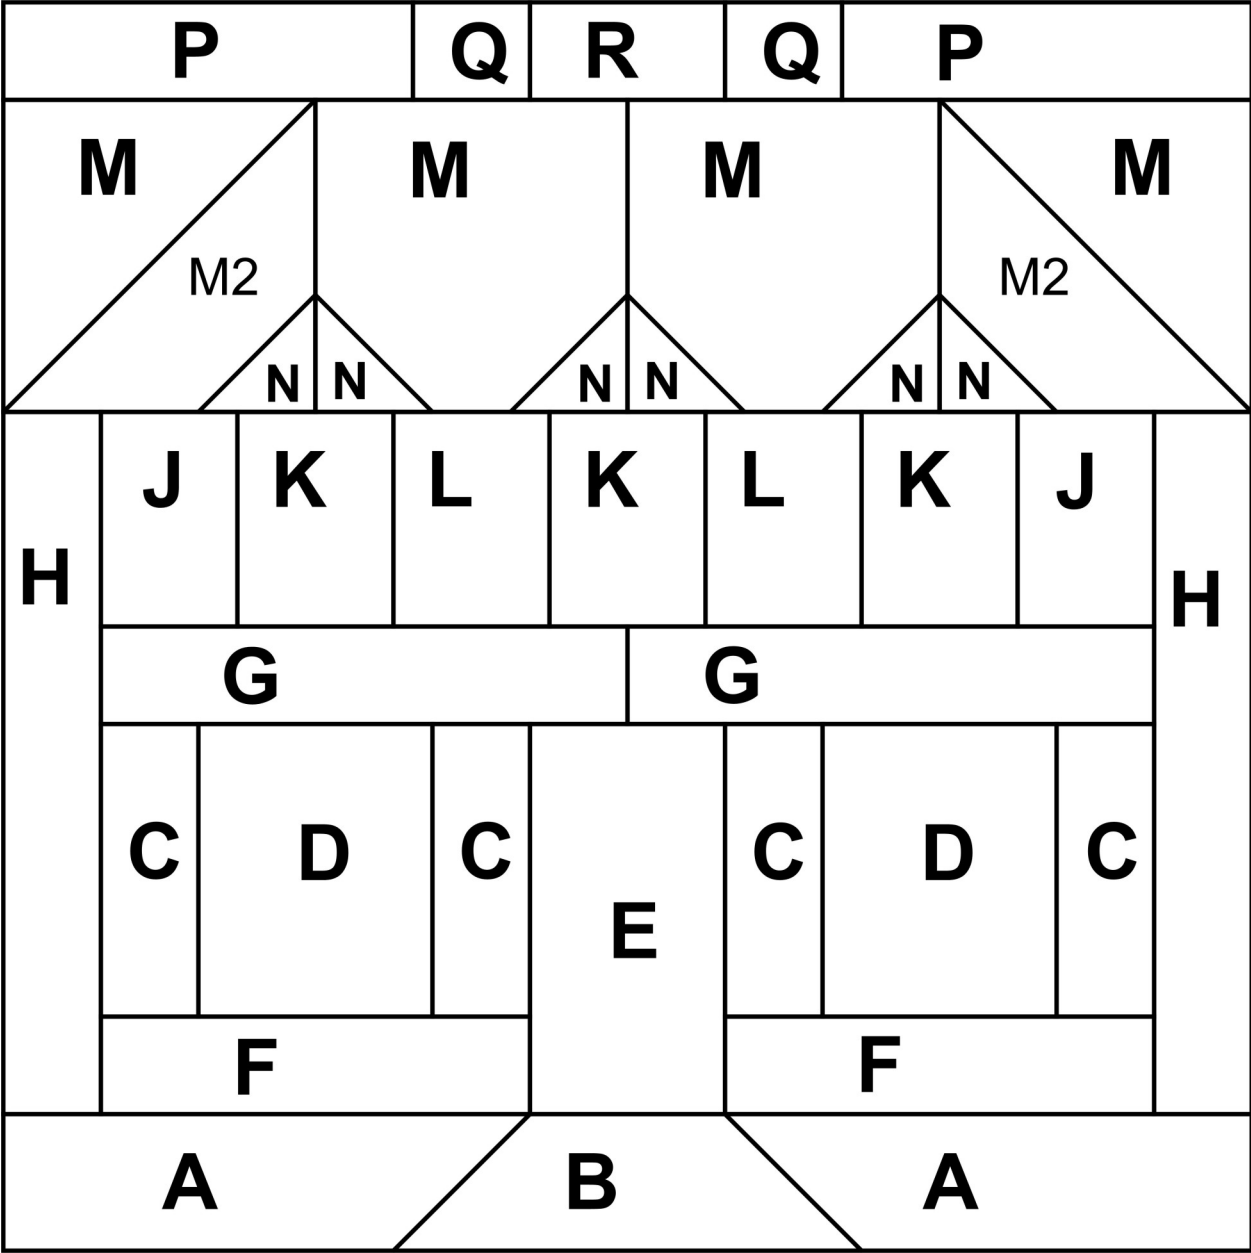

# The Basic House Pattern

(adapted from Quiltmaker, October 2014)

Measures 16" x 16" finished

# Cutting Chart

	Cut Length	Cut Width	Quantity	Section
	(Inches)	(Inches)		
<b>A</b>	7.25	2.25	2	S6 Lawn
<b>B</b>	6.5	2.25	1	S6 Walkway
<b>C</b>	1.75	4.25	4	S5 Siding
<b>D</b>	3.5	4.25	2	S5 Window
<b>E</b>	3	5.5	1	S5 Door
<b>F</b>	6	1.75	2	S5 Siding
<b>G</b>	7.25	1.75	2	S4 Siding
<b>H</b>	1.75	9.5	2	Siding
<b>J</b>	2.25	3.25	2	S3 Siding
<b>K</b>	2.5	3.25	3	S3 Window
<b>L</b>	2.5	3.25	2	S3 Siding
<b>M</b>	4.5	4.5	4	S2 Sky
<b>M2</b>	4.5	4.5	2	S2 Roof
<b>N</b>	2	2	6	S2 Gable
<b>P</b>	5.75	1.75	2	S1 Sky
<b>Q</b>	2	1.75	2	S1 Chimney
<b>R</b>	3	1.75	1	S1 Sky

# Assembly Instructions

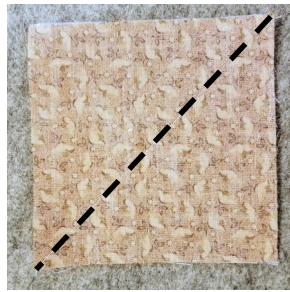

Sections S1, S3, S4, and S5 should be pretty self-explanatory.

Section S2:

For the two outside parts:

Take a pair of M and M2 squares.

Place them right sides together, sew on the diagonal, press in one direction, matching up edges

Trim off the excess underneath.

Take the N square, and match up with corner of M2, right sides together. Sew along the diagonal, press and trim as above. Use this technique to construct all the squares in S2.

# Assembly Instructions Continued

## Section S6:

Take the two A's and B pieces:

Right sides together, lay out as shown.

(note that this is NOT to scale, B is too short in this photo)

Sew diagonally across the corners. Press open.

Trim off the excess underneath.
